Memo to File:

RE: Koosharem Clay Pit
ML-27110 and ML-27206
Piute County, Utah
ACT/031/002

Mr. Harold Cahoon, of Interstate Brick Corporation, called the Division and talked with Jim Smith on this date. The discussion was in reference to Mr. Don Fullmer's letter to Mr. Smith regarding Interstate Brick's willingness to go back and perform the additional reclamation work required under State law at the Koosharem Clay Pit in Piute County. According to Mr. Cahoon, Interstate Brick's position in this matter is one of unwillingness. Interstate Brick has no intention of going back and performing additional reclamation work for Mr. Fullmer. Mr. Cahoon stated that the reclamation performed in September, 1978 at Mr. Fullmer's direction was, in Interstate Brick's opinion, a fulfillment of their obligation. Mr. Cahoon stated that it was now Mr. Fullmer's responsibility as far as he was concerned, and he will send the Division a written response stating Interstate's position relative to this matter.

John Blake, of State Lands, will be notified to proceed with whatever action he deems necessary at this time. The Division will proceed in a similar direction to resolve this long outstanding problem.

JAMES W. SMITH, JR. *JWS*
RECLAMATION SOILS SPECIALIST

JWS/te

cc: John Blake,
Div. of State Lands
